

PARENT LETTER FOR SYSTEM USERS

Dear Parent,

Your child has requested access to the Henrietta ISD network, and we need your permission in order to grant this access. Getting access to our computer system allows your child to communicate with other schools, colleges, organizations, and individuals around the world through the Internet and other electronic information systems/networks. Through the Henrietta ISD electronic communication system, your child will have access to hundreds of databases, libraries, and computer services all over the world.

With this educational opportunity also comes responsibility. It is important that you and your child read the enclosed Henrietta ISD policy, administrative regulations, and agreement form and discuss these requirements together. Inappropriate system use will result in the loss of the privilege to use this educational tool.

Please note that the Internet is an association of diverse communication and information networks. It is possible that your child may run across areas of adult content and some material you might find objectionable. While the Henrietta ISD will take reasonable steps to preclude access to such material and does not encourage such access, it is not possible for us to absolutely prevent such access.

Please return the attached agreement form indicating your permission or denial of permission for your child to participate in the Henrietta ISD electronic communication system.

Sincerely,

Principal

Internet Safety

The Henrietta Independent School District makes the Internet accessible in accordance with our mission to provide information resources and services to ensure that all users have free and open access to ideas and information. In this role, the District provides access to information resources available on the Internet. The District has no control over the information obtained through the Internet and cannot be held responsible for its content or accuracy. It may contain materials which some find offensive or inappropriate. All staff, students and other users access the Internet at their own discretion.

In accordance with the federal Children's Internet Protection Act (CIPA), (Pub. L. 106-554), all desktop computers, laptops and personal/HISD wireless devices, that utilize the HISD network, will be filtered by a centralized filtering appliance. This filtering appliance is set to screen out sites which may reasonably be construed as obscene, as that term is defined in section 1460 of title 18, United States Code; or child pornography, as that term is defined in section 2256 of title 18, United States Code; or harmful to minors as defined in section 1703, Pub. L. 106-544. The District has the ability to monitor the online activities of students and staff through direct observation and/or technological means to ensure that students and staff are following the guidelines and policies set forth by the District. Additionally, as a part of the Protecting Children in the 21st Century Act that was passed by Congress in 2008 to promote the online safety in schools, HISD is committed to educating minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response.

District Board Policy also prohibits harassment, bullying, retaliation, discrimination, and other conduct that creates a hostile working or educational environment for an individual. This prohibition extends to the use of the District's technology resources. If you ever feel that you are being harassed, bullied, retaliated or discriminated against, or otherwise being subjected to illegal or inappropriate conduct through the District's technology resources, you should immediately report it to the District.

As with any other technology resource, restriction of a child's use of the Internet is ultimately the responsibility of the parent/legal guardian, within the confines of the law.

The District assumes no responsibility for damages, direct, or indirect, for the use of the Internet. This includes, but is not limited to, damage to District or personally owned equipment caused by virus-laden material downloaded from any Internet site. Users are encouraged to purchase and use a virus detection program on their personal devices.

Users should be aware that the Internet is not a secure medium. It is possible for third parties to obtain information regarding an individual user's search activities. Users should be very cautious about providing personal information over the Internet.
